Skills & Experience

As a multimedia production graduate, I have a widespread knowledge of computer software. I am highly experienced with all basic Windows and Microsoft programs. I am experienced with graphic design software including Fireworks, Photoshop and Illustrator, Website design software Dreamweaver, and animation software Flash, Director, 3D Studio Max. As well as audio and video software Premiere Pro and Soundforge.

With my degree being from the School of Computing, combined with the School of Art & Design, my productions are both intuitive and creative. I am a very competent person, who strives to succeed, with attributes which are beneficial in all areas of work.

Interests

Photography is a hobby of mine which I enjoy thoroughly. I edit and manipulate images which I add to my portfolio and use in the websites I develop.
